Batman Forever is a 1995 American superhero film directed by Joel Schumacher and produced by Tim Burton, based on the DC Comics character Batman by Bob Kane and Bill Finger. The third installment of Warner Bros.' initial Batman film series, it is a stand-alone sequel to Batman Returns starring Val Kilmer, replacing Michael Keaton as Bruce Wayne / Batman, alongside Tommy Lee Jones, Jim Carrey, Nicole Kidman, and Chris O'Donnell, while Michael Gough, and Pat Hingle reprise their roles. The film's story focuses on Batman trying to stop Two-Face and the Riddler in their scheme to extract information from all the minds in Gotham City while adopting an orphaned acrobat named Dick Grayson—who becomes his sidekick, Robin—and developing feelings for psychologist Dr. Chase Meridian.

Schumacher mostly eschewed the dark, dystopian atmosphere of Burton's films by drawing inspiration from the Batman comic books of the Dick Sprang era, as well as the 1960s television series. After Keaton chose not to reprise his role, William Baldwin and Ethan Hawke were considered as a replacement, before Val Kilmer joined the cast.

Batman Forever was released on June 16, 1995, to mixed reviews from critics, who praised the visuals, action sequences, soundtrack, and performances of Carrey and Jones, but criticized the screenplay and tonal departure from previous films, while others were divided by Kilmer's performance. The film was a box office success, grossing over $336 million worldwide and becoming the sixth-highest-grossing film of 1995. It was followed by Batman & Robin in 1997, with Schumacher returning as the director, Chris O'Donnell returning as Robin, and George Clooney replacing Kilmer as Batman.

SYNOPSIS: In Gotham City, Batman saves a guard from Two-Face, the alter ego of the disfigured former district attorney, Harvey Dent (Tommy Lee Jones). They are locked in a safe tied to a helicopter, where it is filled with acid. Using the security guard's hearing aid, Batman (Val Kilmer) unlocks the safe. Dent kills the helicopter's pilot and both Dent and Batman flee from the ensuing explosion on the Statue of Liberty. Meanwhile, Wayne Enterprises researcher Edward Nygma (Jim Carrey), develops a device to beam television directly to a person's brain. Bruce Wayne

rejects the invention on the grounds that such intrusive technology raises too many questions and Nygma's supervisor attempts to terminate the project. Nygma tests the machine on his supervisor, kills him and resigns from his position, leaving a riddle behind.

Bruce meets psychiatrist Dr. Chase Meridian (Nicole Kidman) and invites her to a charity circus event. There, Two-Face and his henchmen storm the event in an attempt to discover Batman's secret identity; in the process, a family of acrobats called The Flying Graysons are killed by Two-Face. Their youngest member, Dick, survives and throws Two-Face's bomb into the river. Assuming responsibility for Dick, Bruce allows him to stay at Wayne Manor. Dick declares his intention to kill Two-Face and avenge his family's murder, and when he discovers Bruce's secret identity as Batman, he insists on becoming his partner. Bruce, however, turns Dick down. Despite his master's wishes, Bruce's loyal butler Alfred provides guidance and counsel to Dick relating to his desire to follow Bruce's path.

Nygma, meanwhile, becomes the Riddler, allying with Two-Face and promising to discover Batman's identity-he sends Bruce two additional riddles. Having been mass produced and become popular, Nygma's device, the Box, has a unique side-effect allowing him to access its users' brainwaves and enabling him to discover every secret they possess, enhancing his own intelligence and knowledge in the process. Unveiling an advanced device at a business party, Nygma is able to discover Bruce's secret identity. Two-Face attacks the party and nearly buries Batman alive, but Dick saves his life. Continuing to turn down Dick's offer, Bruce gives up his post as the Dark Knight to discourage Dick, and pursues a relationship with Chase, whom he plans to tell his secret to.

Disheartened by Bruce's plans, Dick takes his leave. However, Two-Face and the Riddler later infiltrate Wayne Manor on Halloween just after Bruce has revealed his identity to Chase. The Riddler enters the Batcave and destroys most of the equipment, and he and Two-Face kidnap Chase after Bruce is grazed on the head by a gunshot from Two-Face, though the Riddler stops Two-Face from killing him. They also leave Bruce a final riddle and detain Chase in the Riddler's lair.

After solving the last riddle and using all the answers to determine who Riddler is, Bruce dons his only surviving Batsuit and prepares to confront his enemies. When Dick returns in a costume made by Alfred, telling Batman his stage name is "Robin", Batman finally accepts him as his partner. Batman and Robin locate the Riddler's lair, where the two are separated upon reaching the island. Robin engages Two-Face in a duel, nearly knocking the villain to his death. Robin shows mercy and aids Two-Face, but is taken hostage. Batman is able to successfully infiltrate the tower, whereupon the Riddle reveals Robin and Chase are both held hostage, bound and gagged in giant jars above a pit of water and metal spikes.

The Riddler tells Batman he may only save one hostage, but realizing that they are likely all doomed regardless of who he chooses, he stalls the Riddler with a riddle of his own, using the distraction to destroy the brain wave-collecting device, reversing its effect on the Riddler and sending him into a mental breakdown in the process. Batman is able to rescue Robin and Chase from falling to their deaths, only to find Two-Face holding them at gunpoint. After tricking Two-Face to use his coin, Batman tosses a handful of silver dollars as he flips it in mid-air. Two-Face is confused and falls to his death. The Riddler is sent to Arkham Asylum, and Chase is asked to consult on his case. Riddler offers to reveal the identity of Batman to her-only to claim that he is Batman, showing he has truly become insane. Chase tells Bruce his secret is safe, and they kiss before Chase departs.
