Big Hero 6 tells the story of Hiro Hamada, a young robotics prodigy, and Baymax, his late brother Tadashi's healthcare-provider robot. They form a superhero team to combat a masked villain responsible for Tadashi's death.

Big Hero 6 is the first Disney animated film to feature Marvel Comics characters, whose parent company was acquired by the Walt Disney Company in 2009. Walt Disney Animation Studios created new software technology to produce the film's animated visuals.

SYNOPSIS: In the futuristic city of San Fransokyo (a portmanteau of San Francisco and Tokyo), 14-year-old high school graduate and robotics prodigy Hiro Hamada spends his time competing in illegal underground robot fights. In an effort to get Hiro out of this dangerous lifestyle, his

older brother Tadashi, who attends the San Fransokyo Institute of Technology, takes Hiro to the institute's research lab. There, Hiro meets Tadashi's closest friends: Go Go, Wasabi, Honey Lemon and Fred. Tadashi also introduces Baymax, an inflatable healthcare robot he invented, as well as Professor Robert Callaghan, his mentor. Hiro applies to the university, impressing the school's showcase with his project: a swarm of tiny microbots that can link together in any configuration using a neural transmitter. He is accepted, but the celebration is short-lived when a fire erupts. Tadashi rushes back inside in an attempt to save Callaghan, but an explosion occurs in the building. A funeral is subsequently held for Tadashi and Callaghan.

Two weeks later, Hiro, who has isolated himself in grief, inadvertently activates Baymax. Hiro's only remaining microbot begins to move on its own, and Hiro and Baymax follow it to an abandoned warehouse, where they discover someone has been mass-producing the microbots. A man wearing a Kabuki mask tries to kill the pair, who both escape. Hiro suspects the man set the fire to cover up the theft of the microbots. Determined to avenge Tadashi's death, he equips Baymax with armor and a chip programmed with martial arts for defense. Baymax summons Tadashi's friends, and the group is pursued through the streets of the city by the masked man, but Baymax saves them. At Fred's family's mansion, Hiro upgrades Baymax's armor and the group weaponizes their own inventions before they can take on the masked man.

Believing the masked man to be tech mogul Alistair Krei, who had wanted to buy Hiro's microbots, the group tracks him to Krei's abandoned island lab. They discover the lab was used for teleportation research; however, the government shut down the lab after a test pilot disappeared inside an experimental portal. The masked man ambushes the group, but Hiro knocks off his mask. The man is revealed to be Callaghan, who had used Hiro's microbots to shield himself from the explosion. Realizing Tadashi died in vain, an enraged Hiro removes Baymax's healthcare chip and orders Baymax to kill Callaghan, despite his friends' objections. Baymax obeys Hiro's commands before Honey Lemon manages to reinsert the healthcare chip, reverting Baymax to normal. Callaghan escapes, and Hiro, feeling betrayed by his friends' actions towards Callaghan, flies off with Baymax, still intent on avenging Tadashi.

Back at home, Hiro tries to remove the healthcare chip again, but Baymax recognizes Hiro's recklessness and blocks his access port. Baymax shows Hiro footage of how Tadashi developed him, reminding Hiro that Tadashi's goal was to help others. Hiro apologizes to Baymax and his friends; through research, they discover that the lost test pilot was Callaghan's daughter, Abigail. Having stolen the microbots to seek revenge on Krei, Callaghan reactivates the teleportation portal to destroy Krei's headquarters, but Hiro, Baymax, and their friends defeat Callaghan and save Krei.

Baymax detects Abigail is alive inside the portal. Despite Krei's protests that the portal is too unstable, Baymax and Hiro enter the portal and find Abigail trapped in hyper-sleep. Baymax is struck by debris, causing his armor to break and forcing Hiro to leave him behind. After a sad goodbye, Baymax uses his rocket fist to propel Hiro and Abigail out of the portal before it is destroyed. In the aftermath, Abigail is taken to a hospital and Callaghan is arrested. Hiro starts attending university with his friends. One day, he discovers Baymax's healthcare chip clenched in the rocket fist. He rebuilds Baymax, and they and their friends continue to protect the city as a team of high-tech superheroes, known as Big Hero 6.

In a post-credits scene, Fred stumbles upon a secret superhero lair in his family mansion and is reunited with his father.
