Description

California Tools Vector Logo Free Download

"California Tools" can refer to several companies and product lines. It generally refers to businesses that sell or manufacture tools, equipment, and machinery, particularly within the construction and automotive industries. Some prominent examples include California Tools & Equipment, a retailer of construction tools and machinery, and California Air Tools, a manufacturer of ultra-quiet, oil-free air compressors. There's also California Tool, a manufacturer specializing in cutting tools like those with 1/4-28 threaded shanks and solid carbide rotary tools. Additionally, California Tool & Welding Supply provides welding equipment, gases, and related services
