Description

Canal SAP Vector Logo Free Download

"Canal-SAP" likely refers to the Second Audio Program (SAP) on Canal Isabel II's television broadcasts. SAP is a feature on televisions that allows viewers to access a secondary audio track, often used for languages other than the main broadcast or for services for the visually impaired. Canal Isabel II, a Spanish water and sanitation company, also utilizes SAP within their broader SAP (Systems, Applications & Products) system for business process modernization.
