Description

Coat of Arms of The Republic of The Congo Vector Logo Free Download

The coat of arms of the Republic of the Congo has a shield with a rampant red lion holding a torch. The background color of the shield is gold with a green, wavy, horizontal stripe along the middle. A golden crown sits above the shield. Two large African war elephants support the shield. A banner with the national motto "Unité Travail Progrès" ("Unity, Work, Progress" translated from "La Congolaise") is draped from a bar supporting the war elephants. The arms were adopted in 1960 and readopted in 1991 after having been replaced with a simpler, unheraldic symbol during the People's Republic of the Congo era from 1970–1991.
