Conversion Tracking Pro for WooCommerce V1.0.7

Connect your WooCommerce store with the best-in-the-game ad platforms out there. Send user-triggered events from your eCommerce store to your chosen platform. Retargeting is now as simple as ABC!

WooCommerce Conversion Tracking at a glance

- Advanced conversion tracking for your store
- Ability to connect multiple ad platforms
- Track trigger-based events
- Fine-tuned audience retargeting
- Facebook multiple Pixel and product catalog
- Quick and easy step by step installation
- Option to submit values to connected sites, even using custom parameters
- No custom coding means you save time
- Control access to the setting by user role
