Deprixa Pro V8.4 - Courier & Logistics System

Revolutionize your courier and logistics business with DEPRIXA PRO! Streamline your operations, save time and resources, and elevate your business to the next level with our powerful tool. Automate processes, track shipments in real-time, and ensure maximum security at every stage of the logistics chain. Customizable, intuitive, and easy to use, Deprixa Pro is the smart choice for businesses of all sizes. Don't settle for outdated systems—get Deprixa Pro now and transform your business. The future starts today!

Payment Gateways

In this new module, you'll find the most popular payment APIs such as STRIPE, PAYPAL, and PAYSTACK, allowing seamless transactions from the online shopping module. Whenever you purchase an item on platforms like eBay, Amazon, or other stores, you can pre-alert and then pay for your shipments with credit cards.
