Description

Easyship WooCommerce Shipping Rates WP Plugin Free Download

Easyship V0.9.7 is a shipping platform that lets all merchants reach customers around the world with low shipping costs and increased conversion rates. So whether you're sending out 100 shipments a month or 50,000, we have a solution that will fit your needs.

Over 100,000 online retailers trust us to save them time and money with smart shipping solutions. Integrate Easyship with your WooCommerce store now to see how you could streamline your delivery services.

SHIP BETTER WITH EASYSHIP FOR WOOCOMMERCE

Access pre-negotiated shipping solutions from couriers around the world with just one account, or link your own courier accounts (including Fedex, UPS, DHL and more) and use your own rates

Offer full transparency with dynamic rates at checkout to improve conversion – customers can choose their preferred shipping option knowing all costs, delivery time, and taxes

Access 24/7 support so you can give your customers the service they expect

Compare domestic and international shipping solutions

MANAGE YOUR SHIPMENTS IN ONE PLACE

Sync orders and print labels with one click

Store your product dimensions, category, and weight for faster processing and shipping costs, even with volumetric weights

Automatically update “fulfilled” orders with tracking numbers and courier names

Choose preferred solutions based on destinations, product type, or weight and expedite shipping with preset rules

Maintain control of your finances by downloading past invoices, receipts, and transactions statements

Monitor your shipments with notifications from your chosen couriers

Automatically generate domestic return labels

SHIP INTERNATIONALLY WITH CONFIDENCE

No other WooCommerce shipping app makes it this easy to reach customers around the world.

Automatically generate and download ready-to-go shipping documents

See exact import tax, VAT, GST and other fees upfront so there are no surprises

Get accurate, complete Customs documentation and avoid issues and delays with your shipments

OFFER YOUR CUSTOMERS TOTAL FLEXIBILITY

Flexible shipping options increases conversion, so let your customers choose between the cheapest, fastest or best-value delivery solutions
Reduce customer complaints and emails by showing clear delivery times
In-cart settings give you the flexibility to choose prepaid (DDP) or postpaid (DDU) tax and duty – you can even include this as a checkout option

GIVE CUSTOMERS A HOLISTIC POST-PURCHASE BRAND EXPERIENCE

Use branded packing slips to elevate the customer experience when they receive their parcel
Send emails with your branding to give customers a fully branded journey from purchase to delivery
Brand your tracking pages so your customers always know exactly what packages they're tracking, no matter where in the world they are
Send customers a link and let them track orders in real-time

MONTHLY SUBSCRIPTIONS THAT FIT YOUR BUSINESS

The Easyship app will always be free for new and small businesses, for companies shipping under 100 orders per month – you only pay your shipping costs.

Our subscription plans are based on the volume of shipments processed each month. Get the flexibility needed to scale your logistics and reach customers wherever they are based.
