Elysium is a 2013 American dystopian science fiction action film written, produced, and directed by Neill Blomkamp. It was Blomkamp's second directorial effort. The film stars Matt Damon and Jodie Foster alongside Sharlto Copley, Alice Braga, Diego Luna, Wagner Moura, and William Fichtner. The film takes place on both a ravaged Earth and a luxurious artificial world (Stanford torus design) called Elysium. The film itself offers deliberate social commentary that explores political and sociological themes such as immigration, overpopulation, transhumanism, health care, worker exploitation, the justice system, technology, and social class issues.

The film was released on August 9, 2013, by Sony Pictures Releasing through the TriStar Pictures label, in both conventional and IMAX Digital theaters. It received positive reviews, but critics considered it to be disappointing after Blomkamp's first film, District 9. It grossed \$286 million and was released on DVD and Blu-ray on December 17, 2013.

SYNOPSIS: In 2154, Earth is overpopulated, diseased, and heavily polluted from ecocide. The planet's citizens live in extreme poverty while the rich and powerful live on Elysium, an orbiting space station just outside of Earth's atmosphere, with luxuries, including Med-Bays, medical devices that can heal any disease or condition.

Spider, a hacker living in Los Angeles, runs a space shuttle operation to smuggle people into Elysium. Elysium Defense Secretary Delacourt is in charge of preventing illegal entry to Elysium; after shooting down Spider's space shuttles by Kruger, Elysium President Patel reprimands Delacourt for her unorthodox methods, threatening to discharge her position for any more actions unless she dismisses Kruger. In retaliation, Delacourt offers Armadyne Corp CEO John Carlyle defense contracts for life if he creates a program that will allow Delacourt to conduct a coup and install herself as president. Carlyle writes the program and stores it inside his brain.

On Earth, parolee Max De Costa works for Armadyne Corp when he is accidentally exposed to a lethal dose of radiation. He is only given medication for the side effects and told he has five days to live after being fired by Carlyle. Max and his friend Julio approach Spider to make a

deal: if Max successfully steals information from an Elysium citizen, Spider will give Max a shuttle ride to Elysium to use a Med-Bay to cure his condition. Max demands that the target be his former boss, Carlyle. Due to his declining health, Spider provides Max with a powerful exoskeleton via surgery.

Max and Julio shoot down Carlyle's shuttle to Elysium; Carlyle is fatally injured in a shootout against his security robots. Max and Julio successfully extract the program from his brain, but the data becomes unexpectedly scrambled, locked behind a security program. Delacourt sends a black ops team, led by Kruger, to retrieve it. Kruger kills Julio, but an injured Max escapes with the copy of the program, while Carlyle's death destroys any possibility of further retrieval from his brain.

Max seeks help from his childhood friend and nurse, Frey, who patches him up. Max goes to Spider and realizes that the data in Max's head is a program that can reboot the entire Elysium mainframe. Delacourt locks down all flights up to Elysium, leaving Spider unable to take Max. Max angrily leaves, though not before Spider discreetly places a tracking device on him. After Kruger kidnaps Frey and her daughter, Max approaches him and offers him the data in exchange for the use of a Med-Bay. Kruger accepts, and Delacourt lifts the lockdown so the group can travel to Elysium. During the flight, Kruger and Max fight over the data, and a grenade explodes in Kruger's face, damaging the ship. The ship then crashes on Elysium; Max is arrested and taken to Delacourt, who orders a team to extract the data. Max escapes and heads to the armory to save Frey, who has been turned over to Kruger's men. Kruger is revived by a Med-Bay and confronted by Delacourt, whom he fatally wounds. He orders his men to start killing the politicians on the station while he dons a more advanced exoskeleton suit to hunt down Max, planning to initiate the protocol himself.

Spider lands on Elysium and finds Max. Max wants Spider to have his men protect Frey and get her daughter to a Med-Bay for the data. They reach the computer core, where they are confronted by Kruger. Max and Kruger engage in combat, which ends with Max managing to disable Kruger's connection to his suit; Kruger responds by attempting to kill them both with a grenade, but Max throws him over the ledge as the grenade explodes, killing Kruger. Spider connects Max to the computer, but the data transfer will kill Max if he downloads it. Max says his goodbyes to Frey and initiates the download, killing him. The Elysium computer reboots, allowing Frey to heal her daughter. The robot police arrive but cannot arrest Spider, as everyone on Earth is now considered a citizen of Elysium. Medical shuttles loaded with Med-Bays are dispatched to Earth to begin healing everyone who needs help.
