eMarket is built as a multi-homepage WooCommerce WordPress Theme. More new homepages and features will be added soon. Buy the theme today, and you will get all updates in the future!

HOT MOBILE-SPECIFIC WEB DESIGN

Do you want to have a professional online store on mobile devices?

Unlike other themes which support responsive layouts only, eMarket is built with both responsive layouts and mobile-specific web designs with full of shop features, specifically designed and developed for mobile devices. This is the trend of online store this year – when using and shopping via smartphones is increasing rapidly!

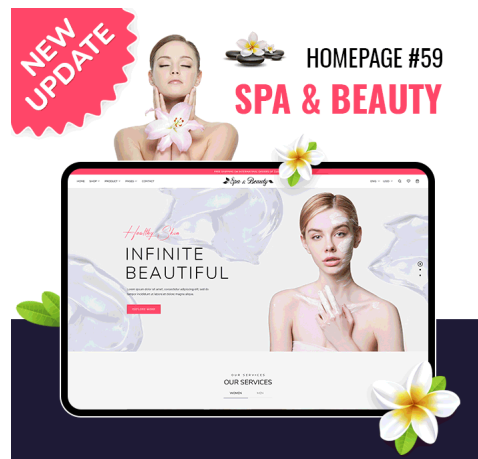

By using mobile layouts, you can build a mobile-friendly website and bring your customers a great mobile shopping experience. You're able to enable these layouts in theme option based on your market strategies. When you disable mobile layout, the theme will use the responsive layouts as default.

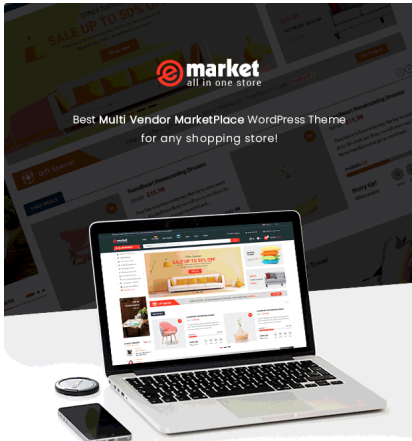

MULTI-VENDOR MARKETPLACE SUPPORT:

If you want to build a multi vendor marketplace website, this will surely meet your requirements for a multi vendor marketplace WordPress theme.

eMarket is completely compatible with Dokan MarketPlace, WC Vendors, MultiVendorX, WCFM MarketPlace – Best Plugins can help you turns your site into multi-vendor eCommerce site.

Integrating in theme are powerful premium plugins/addons, including Revolution Slider to create beautiful and smooth slider, Elementor page builder which allows users to drag and drop elements to create page/post with ease.. and other amazing addons.

Experience a high quality in both designs & customization options in a WordPress theme. Build a beautiful website just in few minutes.
