Description

Foil Balloons Currency & Numbers – Download After Effects Templates

After Effects CS5 | No Plugins | 1920×1080 | 2.5 Gb

This project you can use to expand the typography in your slideshow. I created the letters from the font Coluna Rounded. Therefore, the balloons letters and the original font are well combined. It also fits perfectly with fonts Bebas, Montserrat, Cocogoose, Helvetica, Roboto, Nexa, Oswald, Quartz, Raleway, The Bold Font, Uni Sans, Zona Pro, Code Pro and others. In the folder with the project you will find links to this free font and fonts that fit well. Mix and your typography will get better. It's simple.

Main Features

No plug-ins required

Duration loop cycle (0:06 sec x infinity)

Fast render

CS5 and above

Letter size 800×1080 FullHD

40 elements

High quality sequence

Easy to edit
