HUD UI Anatomical Titles is an After Effects template that features a light futuristic particles design. In the project, you will find 10 scenes and 20 text placeholders. The pack contains scenes with the brain, skull, lungs and torso. You can use the default color theme or adjust the color to match your own style with the color controller in every scene. You can use this to promote and advertise a TV show or program about technology, medical, science, environmental documentaries and more. No plugins required.
