Description

IDEA V2024.1 Free Download

IntelliJ IDEA 2024.1 introduces an array of exciting upgrades to help streamline your workflows. IntelliJ IDEA Ultimate now boasts full line code completion, providing comprehensive code-aware suggestions for entire lines of code. Support for Java 22 ensures compatibility with the latest language features. The overhauled terminal enhances command-line operations, while sticky lines in the editor facilitate smoother navigation through codebases. There are dozens of other improvements to various parts of the IDE in version 2024.1. Check them out below!
