Description

Indonesia Telekom Vector Logo Free Download

Telkom Indonesia offers a wide range of network and telecommunication services. These include include fixed wireline and fixed wireless telephone connections (CDMA), cellular services (GSM), network and interconnection services, as well as internet and data communication services. Telkom also provides services in information, media and edutainment, including cloud-based and server-based managed services, e-Payment and IT enabler services, Pay-TV, as well as e-Commerce and other portal services.

The company has become too large for the domestic market only and thus expanded its focus to international expansion in order to sustain growth. Telkom provides services in various countries, including Myanmar, Macau, Hong Kong, Malaysia, Taiwan, Singapore and USA.
