KaVo has been synonymous with Dental Excellence for over a century. The company's passion for quality, precision and driving progress in dentistry has made it a pioneer and source of innovation for over 110 years, leading the charge among manufacturers in the international dental sector.

Countless KaVo products are considered milestones in dental technology. KaVo's longstanding success is no mere coincidence, but the result of many years of hard work.

Through its products, KaVo has constantly laid down new benchmarks as it seeks to drive development in dentistry sustainably and at the very highest level, for the benefit of clinics, practices, universities and dental laboratories.

KaVo has been part of the Finnish Planmeca Group since 2022. Under the joint slogan of "Stronger together", the two companies have pooled their colossal expertise to even better effect, with a focus on harnessing their immense innovative strength and fuelling technological progress in modern dentistry.
