Description

MA30H AC1300 High Gain Wireless Dual Band USB Adapter Free Download

MA30H AC1300 High Gain Wireless Dual Band USB Adapter Driver for windows 10 and 11.

Strong Dual Band Wi-Fi Speed — Speeds up to 867 Mbps (5 GHz) + 400 Mbps (2.4 GHz)¹

Wider Signal Coverage — A high-performance antenna

Plug and Play — With the built-in inbox driver by Windows operation systems, you just need to plug into your computer and play.

MU-MIMO — Simultaneously serve several devices with no more latency or bandwidth congestion²

Improved Security — The latest security enhancement, WPA3, provides enhanced protection in personal password safety³

Backward Compatibility — Full support for 802.11ac/a/b/g/n standards

Windows Compatible — Supported operating system: Windows 10, 11

Fast AC1300 Dual Band WiFi:

Armed with IEEE 802.11ac wireless standard, MA30H comes 3x faster than 802.11n. MA30H can handle all of your online activities, from HD video streaming to lag-free online gaming and web browsing, thanks to its high-speed Wi-Fi (up to 867Mbps over the 5GHz band and 400Mbps over the 2.4GHz band).

Boost Wireless Range with High Gain Antenna

A high gain antenna reaches your router from farther with more precise directional range, sustaining faster and more stable wireless connections.

Signal Transmission and Reception Range

Boosted Throughput with MU-MIMO

MU-MIMO technology provides two simultaneous data streams, improving the throughput and efficiency of the entire network when working with

a compatible MU-MIMO router.

Adjustable Multi-Directional Antenna

Rotate and adjust the antenna in multiple directions to improve the user experience in various situations.

Plug and Play without CD

With the built-in inbox driver by Windows operation systems, you just need to plug MA30H into the computer and then enjoy the fast wireless network in seconds.

Compatible with Windows Operating System

MA30H fully supports the latest Windows 11.

The Latest WPA3 Protects Your Personal Network

The latest security standard, WPA3, offers improved comprehensive WiFi protection to defend your devices and private information against brute-force attacks.⁴

Protect Against Brute-Force Attacks

Delivers robust protection even when you are using a weak password

Advanced Forward Secrecy

Prevents data from being snooped even if a cracker compromises a session's secret keys

Unbreakable 128-Bit Encryption

Creates an active defense against security threats and intruders

1 Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications. Actual wireless data throughput and wireless coverage, and number of connected devices are not guaranteed and will vary as a result of network conditions, AP limitations, and environmental factors, including building materials, obstacles, volume and density of traffic, and AP location. 2 Use of MU-MIMO requires APs to also support the corresponding feature. 3 Use of WPA3 requires APs to also support the corresponding feature. The functionality of MA30H may be restricted on some computing systems and platforms. Please try to update the device's driver for feature compatibility.
