### Description

The Mac OS series had some issues when it came to the graphical user interface which was frowned upon by many Apple users. The Mac OS sierra broke the ice with its release proving to be the best in class in terms of graphical user interface as well as hardware interfacing.

The Mac OS sierra beta version had the best compatibility results compared to all other OS released by apple in 2016. The Mac OS sierra gained the trust of the end-users with the addition of Siri and Apple pay support in safari.
