Description

Microsoft Outlook V4.2201.1

Microsoft Outlook keeps you connected and protected with your secure email, calendar and files all in one app. With intelligent email, a task organizer, spam email protection, calendar reminders and contacts, Outlook lets you do more from one powerful inbox. Connect. Organize. Get things done.

Outlook's secure email service works with Microsoft Exchange, Microsoft 365, Outlook.com, Gmail and Yahoo Mail online from your phone, giving you flexibility to stay connected on the go. Read email, email friends and colleagues and see what matters most with Focused Inbox. Switch between emails and a calendar organizer to schedule the next meeting or share availability with just a few taps. Organize your email and send documents from your Files list or photos from your Gallery and attach it easily.

Microsoft Outlook provides secure and seamless inbox management that enables you to stay connected, anywhere. Outlook includes Office, Word, Excel, PowerPoint and OneDrive integrations to help you manage and send files and connect with Teams, Zoom and other video calling providers without hassle. Task planner tools and full integration mean that you will never miss a deadline again.

Customize email and calendars so you can stay on top of your busy day. Organize your email with tags, folders and more. Outlook's calendar organizer has intelligent tools to make your day easier. Listen to what's new in your inbox, organize schedules and more. Find what you need with Search with a tap or your voice.
