### Description

Petro Canada Vector Logo Free Download

Petro-Canada is a Canadian retail and wholesale brand of energy products owned by Suncor Energy. It operates over 1,500 retail gas stations and offers a range of fuels, the Petro-Points loyalty program, and the Electric Highway network of EV chargers. The brand was originally a government-owned corporation created to provide Canadian control over the oil industry but is now part of Suncor Energy, which handles both upstream resource extraction and downstream retail operations.
