### Description

Printful Integration V2.0 WP Plugin Free Download

Printful Integration - Addon for Lumise Product Designer

This is an addon for Lumise version WordPress Plugin. It makes compatible with Dokan, the multi vendors for the WooCommerce plugin. It helps you add a new product from an existing Printful product base. Your customers can design the product created using a product base of Printful. When the customer completed the order, a new order will be created on Printful with the design file.
