Building a Family Tree with Puerto Family Tree PHP Script.

It is more than just a family tree. A new home for family memories.

Make your family tree live with Puerto Family Tree and do not leave it just a memory hanging. build it with the participation of everyone and make it stretch to infinity.

+ What is new in v1.5.2 (29/5/2022)

- add the minimize icon for every knot
- dd family for the partner (check the demonstrating video)
- add labels for partner and ex-partner
- fix bugs
