Roblox is a well-known platform for game connoisseurs, whether you enjoy playing them or making them you'll find it all here. And now you can play various games on your Android device.

Endless creativity

Play your favorite Roblox games on the go with the Roblox Android application. Customize your character and venture on new worlds. One app to rule them all, one application to play all your favorite games on. Roblox is a unique platform where users such as yourself can create their own worlds and allow the public or only their friends to test it out. However, the creation of these worlds and rooms is only available on the desktop application called Roblox Studio. Being a version ported to mobile, you won't be able to play requirement heavy games and loading into many other worlds will take a few moments.

While you can't tinker and adjust the coding of your world, you're still fully capable of entering it and many others with the Roblox Android application. Run, jump and dash out of the way of obstacles in one of the many obbys available, or become a lord of enterprise as you battle fellow players in a colorful tycoon game. There are many activities available for you to compete in, such as hide and seek, various adventure RPGs, and multiple shooters.

Visit the Robux store, spend some money and unleash your inner fashionista as you dress up your avatar to perfection. Once you're fashionable and ready, you can meet up with friends in a social world or challenge them to a few games.
