Description

RSS Aggregator V4.21.1 WP Plugin Free Download

WP RSS Aggregator V4.21.1 is the perfect plugin to quickly import RSS feeds, build a news aggregator, and for easy autoblogging.

This is why it is used on 60,000+ websites to aggregate and curate content from all over the web.

WP RSS Aggregator: The original and still the most popular RSS import plugin for WordPress
Import and display RSS feeds anywhere on your site.

Set up any RSS feed once and let Aggregator do the rest automatically. Create a constant flow of fresh content to keep your audience engaged.

Whether you're creating a news aggregator, sharing related posts, curating videos, or displaying a collection of articles, RSS is still the best way to do it.

Discover the power of Aggregator and RSS feeds

With more than a decade of experience in the aggregator and RSS space, we've built WP RSS Aggregator to be your ideal partner for autoblogging, content hubs, and news aggregators of all kinds. Here are our main features:

- ? Quick Setup: Add RSS feeds from unlimited sources in seconds, whether for news feeds, blog posts, or anything else.
- ? RSS Feed Auto-Discovery: Enter a website's URL and let WP RSS Aggregator find the RSS feed.
- ? Manage Your Sources: Keep track of your RSS feed sources in one place. Monitor, pause, and track their automation.
- ? Auto-Updating Content: Keep your website fresh with new content, both as an autoblog & to supplement existing content.
- ? Customizable Displays: Showcase your RSS feeds in stylish templates that highlight the content you want to share.
- ? Built-In Attribution: Automatically credit the original authors and content creators.
- ? Video Aggregator: Import and share YouTube videos from any channel or user.

? Optimize Performance: Control the number of RSS feed items imported and stored on your site to keep it running smoothly.

?? Build It Your Way: Use the WP RSS Aggregator block or shortcode [wp-rss-aggregator] to display RSS feeds anywhere, using any site builder.

WP RSS Aggregator is built with you in mind

There is a lot more to an RSS aggregator than meets the eye. Here are a few additional perks that make working with RSS feeds worth your while.

? SEO Benefits: Become an instant source of quality content, generate backlinks, and gain more trust in the eyes of search engines such as Google.

? Generate Content Ideas: Monitor your RSS feed sources and learn more about which content you should write yourself. Take inspiration and create original content.

? Custom RSS Feeds: Create a custom RSS feed from imported RSS feed items to use anywhere you want.

? Multilingual Support: Integrate with translation plugins to translate imported content into any language.

??? Extendable for Developers: Do more with WP RSS Aggregator by using its selection of action and filter hooks.

? Monetize Your Content: Learn how to make money with WordPress by leveraging your content.

? Unlock Premium Upgrades

Your website deserves the best, so we've been building premium upgrades for WP RSS Aggregator since 2013 with the goal of helping you deliver the best experience possible to your visitors while improving your website's performance.

Feed to Post (?? Most Popular): Automatically convert RSS feeds into WordPress posts, pages, or any custom post type.

Full Text RSS Feeds: Import the full content from sources that only provide RSS feed excerpts or are missing images.

Curate Your Content: Automatically or manually curate your content to only share the most relevant items on your site.

Display Templates: Attract more attention with stylish feed designs, including titles, excerpts, images, and attribution.

Automated Filtering: Precisely control what content is imported and displayed using keywords, phrases, and tags.

AI Integrations: Use our WordAI and Spinner Chief integrations with Feed to Post to create original titles and content.

Custom Mapping: Map custom fields from RSS feed sources to any custom field in your posts or pages.

Get access to all of these amazing features with our Premium WP RSS Aggregator Plans.
