Description

Shofy V1.2.3 Free Download

Shofy v1.2.3 - eCommerce & Multivendor Marketplace Laravel Platform. A versatile Laravel script for eCommerce, is a sleek and contemporary HTML5, Bootstrap-powered eCommerce solution equipped with comprehensive features.

This Laravel-based eCommerce script serves as a robust tool for crafting a professional and visually appealing online store. A well-designed script facilitates the swift and effortless construction of an eCommerce website that not only boasts an attractive appearance but also operates seamlessly.

These themes offer the fundamental structure and layout for your online store, encompassing pages dedicated to product listings, shopping carts, checkout processes, and more.

Whether you're initiating your eCommerce venture or seeking to enhance your existing website, a Laravel eCommerce script stands as a valuable asset for developing a high-quality online store tailored to your unique requirements.

Shofy is highly customizable – looks awesome on tablets and mobile devices. We have included best practice of web development – you can create great website layout based on Bootstrap or Grid 1200px.

Prebuilt 5+ Demo Websites

The image displays six prebuilt demo website screenshots arranged in a 3x2 grid. The categories are: Electronics (The Best Mobile Collection 2022), Fashion (The Clothing Collection), Beauty & Cosmetics (Be your kind of beauty), Jewelry (Shine bright), and Grocery (The Online Grocery Store). A sixth screenshot labeled 'Coming Soon' is also present.

Electronics

Fashion

Beauty & Cosmetics

Jewelry

Grocery

All E-commercs

Features & Apps are Included

an eCommerce solution that turns more leads into customers.

The image illustrates five eCommerce features with corresponding screenshots: Variation Switch (product page with 'Add to card' button), Sale Countdown Timer (timer showing 14 days, 10 hours, 18 minutes, 31 seconds), Coupon list (coupon code input field), Quantity Select (product page with quantity dropdown), and Product Quick View (modal window for product details).

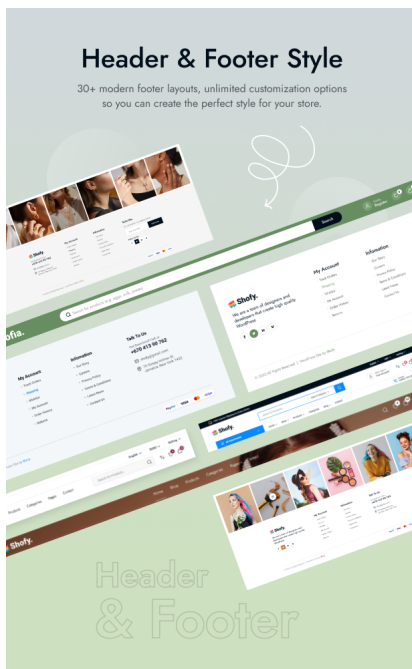

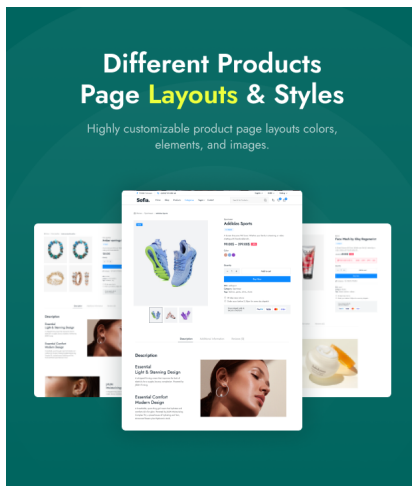

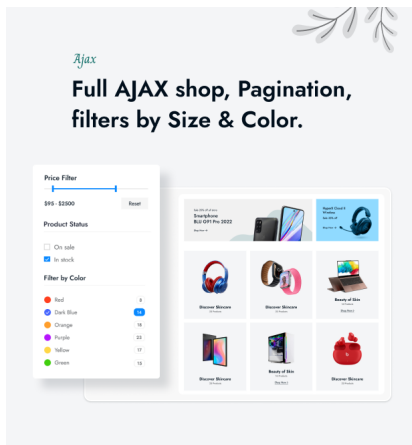

Variation Switch
Create clean and professional product pages that capture your customer's attention

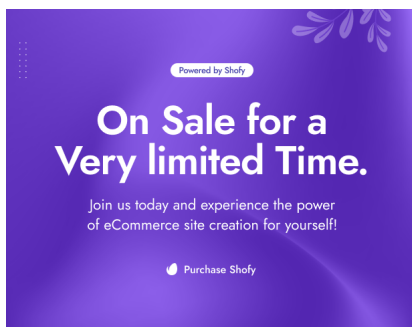

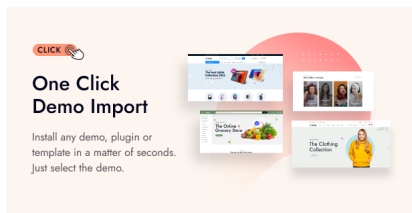

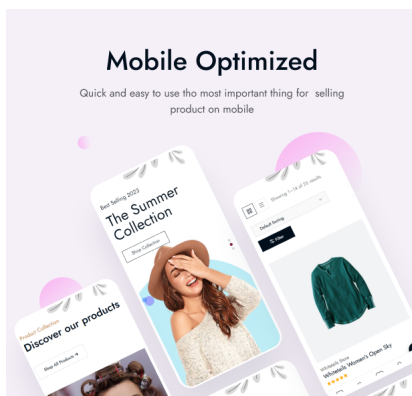

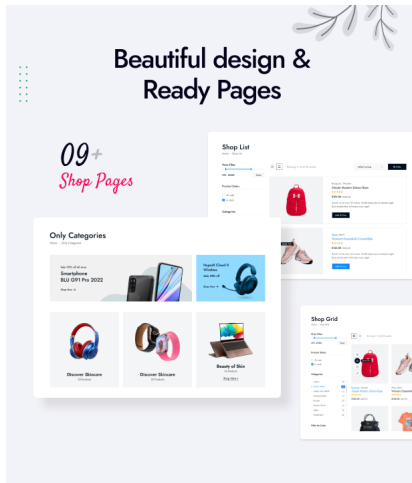

Sale Countdown Timer
Boost sales and engagement for special occasions

Coupon list
A well-crafted coupon to encourage customer on any event or sale

Quantity Select
2 options for you: dropdown select box or manually amount selection

Product Quick View
Enable customers to see an overview of products without leaving current pages

Free plugins

There are some free plugins available on our Marketplace: <https://marketplace.botble.com/products>

Those plugins are working fine for products based on Botble CMS.

We won't support free plugins and free plugins may not compatible with the current version. If you need support for free plugins, please create an issue on GitHub, the plugin's author will support you.

Don't forget to give us a star on GitHub repository and Marketplace product page if you use our free plugins.
