Description

Travelo Responsive Booking WP Theme Free Download

Travelo is a Responsive wordpress theme made for tourism purposes.

Build on a clean design, and in a good thought functionality Travelo can be your best choice if you have a Travel Company but you don't have an online payment service available.

Travelo is a simple product which makes possible the User to book an offer by writing personal details, which will be approved/declined from the agent of the tour company. The main importance is on the filter, which can categorize your offers for better search results.

Attention: If you need the PSD files, contact us via email form on our profile and we'll send them to you.
