### Description

Virtuemart 2 SiteMap Free Download

Virtuemart 2 SiteMap V3.0.5 is component Generate now Up to 3000 products per seconds with SEF active !!!!  
Simply send your Sitemap Product and Category on Google.

The various existing sitemaps take too much setup time and often too technical for a casual user.

No adjustment

All is preset according to the recommendation for a Shop products and categories. feed

Automatic multi-language

Still no setting, each link to the language will be displayed according to your Virtuemart shop.

Eg : SITEMAP FR SITEMAP EN

No knowledge required

I think a copy / paste is not complicated. ?

No duplicate link

Some searchengines hate having X time the same products, the file generated by this component contains only one, and the products and categories with missing languages ??will not be present.

So no undesirable 404 search engines.

Optimized code

Queries and loops are optimized to the maximum.. No unneeded code, that you can us it on all servers

New release : 5 time faster, fix for products in unpublished categories.

Note : Currently the generated Sitemaps are only in XML format to add in the search engines

Extensions specifications

J2.5 & J3.0
