#### Description

Download VirtueMart now!

VirtueMart is a powerful free ecommerce component for Joomla!®. Easy to use for beginners and experts, it offers thousands of built in features to quickly install your professional store.

VirtueMart 3.8.x is the latest stable version available. It is compatible with Joomla! 3.9.x.

#### How to start

You are new to Joomla and VirtueMart or you don't have Joomla already installed? we recommend to download the Full installer:

Unzip the downloaded archive

Move the unzipped archive to your web folder

Open your browser and enter the URL of you website

The installation process starts. Follow the instructions.

You already have Joomla installed ? Download VirtueMart component (Core, AIO and TCPDF)

Unzip the downloaded archive

Install the VirtueMart core component via the Joomla installer first (com\_virtuemart.w.x.y.zip)

Install the VirtueMart AIO component second. It contains VirtueMart plugins and modules (com\_virtuemart\_ext\_aio.w.x.y.zip)

Install the TCPDF component. It is necessary for printing invoices and delivery notes (com\_tcpdf\_1.0.2.zip)

More detailed instructions can be found here: [installation instructions](#).

You need more help? Visit our forum section about Installation, Migration & Upgrade VM 2.

#### Features

VirtueMart includes natively a very important list of features such as:

Complex product easily created

Easy Store Management

Powerful SEO features

Numerous payment providers integrated

Discover all the features, and try our demo.

### Requirements

VirtueMart has the same requirements as Joomla.

However, we recommend those technical options:

php 5.3+ and mysql5.5, php settings: 128 MB RAM (at least 64 MB for the pdf invoices).
