WhatsApp Food v3.2.1 - SaaS WhatsApp Ordering

Ordering on WhatsApp Supercharged

Leverage WhatsApp as platform to accept orders. Create a digital menu for your Restaurant or Bar. Share with your clients and let them order via Mobile.

In the era of covid, restaurants need modern and clean solutions for their traditional way of working. Being closer to their customer is a game-changer. With this tool, they can create both a digital menu and the QR for it. Next, the customer goes to the menu, makes the order, and sends the order on WhatsApp.

Create a digital menu for your Restaurant or Bar. Share with your clients and let them order via Mobile

In the era of covid, restaurants need modern and clean solutions for their traditional way of working. Being closer to their customer is a game-changer.

With this tool, they can create both a digital menu and the QR for it. Next, the customer goes to the menu, makes the order, and sends the order on WhatsApp.

Benefits for project owner

Start a subscription business in less than 10 min

Accept subscription via Stripe, PayPal, Paddle, PayStact and Local

Robust solution with no additional monthly charges or any extra service need.

No time need to run this business. It is completely automated and scalable.

Take advantage of this pandemic, and turn it into your favor.

Benefits for restaurants

Offer their customers to order via WhatsApp.

All they need is their WhatsApp. Bussiness or Regular WhatsApp works the same

ECO friendly. 1 big restaurant menu = 1 tree. Yes, for real.

Restaurants can share their menu online. Based on research conducted by OpenTable, 86% of customers regularly check out menus online before they dine out.

Direct and instant communication with the customer

Accept payments directly via Mollie.com 20+ payment gateways

Benefits for customers

Order via whatsapp, and start direct chat with the restaurant

Pay directly on making the order on Cash On Deliver

They will be able to quickly see the correct item price. They are able to select different item variants and variant's extras.
