WhatsAppMA Apk Latest model v6.60 for Android 2021 is the fantastic WhatsAppMA Apk Download messaging software program you may customize WhatsAppMA without spending a dime and download apk fully mod is 100% purposeful and undoubtedly safe

WhatsApp MA 6.60 Features

In the latest update improvement is mainly due to the small screen are:

WhatsApp possibility to change the interface color of greens instead of the classic sticks.

The user interface includes a night mode.

Change Language within the application.

The New Collection of Emoji.

Ability to download themes for WhatsApp.

Remove unnecessary files from the app.

Different sizes.

A wide range of fonts.

HD or photos.

It's easy to select text.

Message counter groups.

Ability to hide the Call button.

More privacy settings.

Usually the difference between newspapers and broadcast messages.

Different styles of interaction.

WhatsAppMA is another version of WhatsApp mods It allows us to include new functions in chat application and that, on the one hand, affect the visual aspect of the interface, and on the other, the app's internal functions. To start with, we have to mention that this application is based on WhatsApp so you don't need to download and install an original version of WhatsApp as it works as a standalone and not as an extension or add-on.

How to Install WhatsAppMA on Android

At first download the latest WhatsAppMA 6.60 APK on your smartphone by using Google Chrome.

Maybe your phone asks User permission to allow to install.

Then just allow it.

When it's done just open it and allow all the permission the WhatsAppMA APK wants from you.

That's It.

Then make a backup of your WhatsApp chat and then uninstall the original WhatsApp. Don't worry anything happens.

And now install the WhatsApp MA Apk and register with your phone number.

After when it is done, you can use WhatsApp MA APK.
