WhatsApp Mix Android 11.0.0

WhatsApp Mix is a MOD for the chat and instant messaging app that you can download to your Android device and extends its customization possibilities

Every day there are more and more WhatsApp MODs to be downloaded. Amongst the most popular ones, we have to point out WhatsApp Plus, GBWhatsApp, and OGWhatsApp but also other interesting developments of the likes of WhatsApp Mix that's here to offer us the particular view of its developer about what the most popular instant messaging and chat app in the world should look like.

Customize absolutely everything in WhatsApp

And probably its main advantage regarding the MODs that we've mentioned is that it's much more flexible when it comes to offering us customization options, especially those that affect its graphics. Every new version incorporates new functions that expand the ones available in the base APK.

We're not talking about functions that are going to change WhatsApp drastically but features that are going to make our user experience much more pleasant when it comes to chatting and sending messages. This is a list of the most important features you'll find in this app:

Anti-ban security features.

Possibility to hide our last seen time without seeing the latest connection times of our contacts.

New privacy modes.

Themes to customize the application.

Possibility to hide chats.

Possibility to download statuses and stories of other users.

Access to a theme server to download new ones.

Option to modify the style of the checks and chat bubbles.

Stats and counts for groups.

Send larger videos than in the original WhatsApp.

Send up to 90 images at the same time.

Write statuses of up to 250 characters instead of just 139.

Possibility to click on the status links of your contacts.

Hide your name and the time when you copy and forward messages that are more than one line long.

Possibility to copy the statuses of your friends.

Change the app's icon and notification icons.

All the latter leads to a WhatsApp application with dozens of possibilities, at least visually. Each new version offers us the possibility to download more icons and new chat bubble styles, as well as other functions... So don't hesitate to download WAMix, especially if you're missing the possibility to modify the graphical aspect of the most popular chat app.

WhatsApp Mix Android 12.0.0

What is WhatsApp Mix Apk?

Whatsapp mix apk is another mod apk of WhatsApp available in the third-party app market. This is a very flexible and feasible form of messaging app that gives all the advantages of WhatsApp but has a lot of add-ons as well.

This apk is designed by Nairo and is available on the internet. WhatsApp Mix Apk is widely used as a replacement for WhatsApp because of its extensive features. This app makes WhatsApp usage even more fantastic and entertaining.

Also, it comes with many advantages over WhatsApp that enhances its popularity. To use this new apk, you need to download it from the internet and further install it in your android to squeeze all its advantages.

Features of WhatsApp Mix APK

It comes with an exclusive feature of Do Not Disturb mode or DND that protects you from all the unexpected calls during the time you are not willing to answer anyone.

The DND feature temporarily blocks all the calls and messages and will make sure that you are not disturbed.

You can hide your seen tick so that the next person does not come to know that you have already seen his or her message. This will save you from replying to unwanted messages.

To maintain your privacy, the apk adds a feature of Hiding chats in which you can hide a particular conversation so that no one else can have a look into it.

Now, you need not ask your friends to send the video or picture they have kept of their status, as you can Download stories of your friends without letting them know.

One of the significant drawbacks of WhatsApp is that it fails to send large files. But with WhatsApp mix apk you can send large files in just a click.

Whatsapp has a limitation of sending only a few pictures at a time, but this apk has overcome this limitation. You can send unlimited images to your friends and family without any hassle.

Sometimes, using the same thing for an extended period invites boredom. But with WhatsApp mix apk, you can customize and change your themes to make your messaging app more alluring and attractive.

Again, WhatsApp mix apk has overcome the limitation of WhatsApp that allows you to share only 139 characters in the text. The apk has exceeded the limit of up to 250 characters.

The apk makes sure that all your chats remain safe. Hence, it comes with new privacy modes that let you control your privacy for your safety.

You need not worry about getting banned from using this app because it comes with the anti-ban security feature that makes it reliable and safe to use.

Conclusion –

WhatsApp Mix APK is readily available on the internet. You can easily download and install it in your android to use it. One thing you need to keep in mind is that you have to enable downloading third-party apps from your settings because third parties make all the apks.

Though it is an apk, it is entirely safe, but you need to make sure that you download it from a reliable and trusted site to avoid any safety issues.

This was all about WhatsApp Mix APK, which is a very useful apk that lets you unleash a customizable mode of texting. Do let us know in the comment section, what is your experience of using WhatsApp Mix APK?
