Wheely, also released as Wheely: Fast and Hilarious, is a 2018 Malaysian English-language 3D computer-animated comedy film written and directed by Yusry Abd Halim as his first animated film. It was released in Malaysia on 16 August 2018. Critically, the film received negative reviews, with critics calling it a mockbuster of Pixar Animation Studios's film Cars.

SYNOPSIS: After an fierce crash, Wheely is demoted from a 3-time rookie racer to a downtown Taxi with a mountain of debt and a bruised ego. The cause of the accident is no other than Putt Putt, his philosophical/Feng Shui practitioner fan who becomes his best friend. Nothing dire happens until Wheely discovers Bella, a wealthy supermodel. Stuff gets odd when she reveals she has a boyfriend. Luckily for Wheely, Bella approves his "Street smart, ghetto like and funny-guy" personality. However, the 2 are prevented from interacting and learning more about each other as Ben, her stuck-up boyfriend, gets in the way. Despite the events, Wheely's situation gets tedious when Bella gets "car-napped" by Kaiser, a monstrous 18-wheeler truck who started a gang interfering with the world.
