Description

WP Event Aggregator V.1.7.7 WP Plugin Free Download

WP Event Aggregator allows you to import Events from anywhere – Facebook, Eventbrite, Meetup, iCalendar and ICS into your WordPress site. You can import Facebook Events, Eventbrite Events, Meetup events and other iCAL supported events into WordPress.

WP Event Aggregator works as a stand-alone as well as add-on plugin with leading Event Calendar plugins listed below, which allows you to run imports from multiple sources right from your dashboard, including Facebook, Meetup, Google Calendar(using iCal Url or .ics file), Outlook Calendar (using iCal Url or .ics file), Apple Calendar (using iCal Url or .ics file), iCalendar, and ICS into WordPress. WP Event aggregator is a perfect match for Event, Event Directory, City Directory, Hotel or School website who needs to display events.
