### Description

XTC Indonesia Vector Logo Free Download

XTC or Exalt To Coitus is an automotive mass organization that was founded in 1982 by 4 young people from Bandung, namely Ivan Rivky Kabira (Masbon), Kuart Suhardjono (U'ang), Agung Wijanarko (Encoem), Irfan Hadisiswanto (Zipponk).

Later the name was changed to Exalt To Creativity with the group symbol in the form of a flag with the top colors white-light blue-blue, in the middle a picture of a bee which was literally interpreted by XTC group members as solidarity between members, far away, if one of them was attacked, then the others will defend like bees. To become an XTC member, prospective members must take part in the registration process in Lembang. Usually, candidates are then given a test to ride a motorbike home without brakes. Another activity of XTC is convoys.

The first XTC Indonesia deliberation took place at the Trans Luxury Hotel on Jl. Gatot Subroto Bandung. As a result of deliberations, the general chairman of XTC for the 2019-2024 period was elected, namely Donny Akbar, owner of the online transportation company BeeGo.
